The Importance of the Vault

THE ANATOMY OF A DORIC VAULT

1. Decorative carapace for added strength that features personalized nameplate & emblem.

2. Steel reinforced cover for added strength.

3. Inner liner of touch ABS Fiberlon®, Lustra-Tech® or Durapreme® bonded to minimum 5000 psi reinforced concrete base and cover

4. Doric’s Integra-Seal® forms an extra barrier from moisture after the vault is sealed

5. Exterior of vault has a hand-applied water resistant coating
When the burial vault is set at the cemetery it often looks like this. At the conclusion of services the casket is placed in the vault; the vault is sealed above ground and carefully lowered into the grave.
The Doric Olympian® burial vaults are unmatched in the burial vault industry today. Designed for families who desire only the best for their loved one, the Olympians® are known for their handcrafted beauty, superior strength and durability. The Olympian® vaults offer a fourth layer of material to surround the casket. This outer casing of durable bronze or stainless steel forms an extra barrier against the elements occurring naturally in the ground. Each Doric Olympian® is formed from the high strength 5000psi reinforced concrete, bonded to ribbed inner liner of fiber-enhanced Doric Fiberlon®. Bronze or stainless steel is then chemically bonded to the inner liner for additional stability. The entire unit is then encased in hand brushed and clear coated bronze or stainless steel. Backed by the DORIC full 100 year warranty.

The careful detail of the Doric Olympian® makes them a new standard in premium burial vaults. Each Olympian Bronze or Olympian Stainless Steel forms a lasting tribute to a life well lived. Matching metal nameplate and metal standard emblem, as well as vinyl personalization available.
Options for Premium Vaults: Choice of two tone standard paint colors included. Vinyl emblem personalization available.

**Bronze**

Triple wall protection combines the durability of reinforced concrete with an ABS Fiberlon® plastic liner for extra strength. Cover carapace is also covered in gleaming bronze for added beauty. Decedent nameplate and appropriate decorative emblem. Bar Handles and subtle elegance. Textured exterior highlighted with two-tone paint to complement the casket selection. Backed by the DORIC full 100 year warranty.

**Lydian**

Triple wall protection combines the durability of reinforced concrete with an ABS Fiberlon® plastic liner for added protection and beauty of a copper inner liner for extra strength. Cover carapace is also covered in rich copper for added beauty. Decedent nameplate and appropriate decorative emblem. Bar handles add subtle elegance. Textured exterior highlighted with two-tone paint to complement the casket selection. Backed by the DORIC full 100 year warranty.

**Athenian**

Triple wall protection combines the durability of reinforced concrete with an ABS Fiberlon® plastic liner for added protection and the beauty of a stainless steel inner liner for extra strength. Cover carapace is also covered in brilliant stainless steel for added beauty. Decedent nameplate and appropriate decorative emblem. Bar handles add subtle elegance. Textured exterior highlighted with two-tone paint to complement the casket selection. Backed by the DORIC full 100 year warranty.
Double wall protection combines the durability of reinforced concrete with an ABS Lustra-Tech® plastic liner strengthening ribs on all sides for added protection. Matching cover carapace also uses ABS Lustra-Tech for an elegant marble-look finish highlighted by symbolic Greek key and wheat designs. Decedent name and dates of birth and death placed on carapace for added security. Bar handles add subtle elegance. Textured exterior highlighted with two-tone paint to complement the casket selection. Backed by the DORIC full 75 year warranty. Included options: choice of two tone standard paint colors included with Vinyl emblem. Name/Dates of deceased directly carapace in large letters, in lieu of nameplate.
Double wall protection combines the durability of reinforced concrete with a Durapreme® polystyrene plastic inner liner with strengthening ribs on all sides for added strength. Six decorative handles for added beauty. Textured exterior highlighted with two-tone paint to complement the casket selection. Backed by the DORIC full 50 year warranty.

**Included Options:** choice of two tone standard paint colors included with only our standard emblems, no customization emblem available.

---

Double wall protection combines the durability of reinforced concrete with a Durapreme® polystyrene plastic inner liner with strengthening ribs on all sides for added strength. Textured exterior solid color paint to complement the casket selection. Backed by the DORIC full 50 year warranty.

**Included Options:** choice of one standard paint color and standard emblem
Delphi

Outer container features single wall protection of durable reinforced concrete, unsealed.

Daisy Chrisom™
Casket/Vault Combination

Delicately sculpted daises cover the lid of the casket-vault combination. The exterior is decorated with softly fluted corners, molded end handles and a gracefully curved base. The finish is delicate gold pearl lined in pure white velvet with a shirred valance. The pillow is surrounded with lace, a small daisy rests in the corner. Manufactured of strong molded polymer, the Daisy Chrisom™ has a precision fit tongue and groove, sealed with a special pure white butyl sealant for added protection. The Daisy Chrisom™ is supplied with a Legend of the Daisy and a presentation card and memorial seed packet to be given to parents. Backed by Doric limited 70-year warranty.

Old Glory
A symbol of freedom and right. Old Glory A final tribute to any American who loves the flag. Old Glory plaque can be placed on the following vaults Bronze, Lydian, Athenian, Patrician, Phoenix, Tiara and Titan. (Athenian with Old Glory pictured)
Carapace Personalization
Superior Quality Burial Vaults
We have a wide selection of vinyl emblems. Our vinyl emblems can be placed on urns, urn vaults and our DORIC Vaults (Bronze, Lydian, Athenian and Patrician.)
C&M Concrete is independently inspected by the National Concrete Burial Vault Association. These field inspections and their certification assure you of receiving a product that has been made to exacting standards. Below is a step-by-step look at how a burial vault is manufactured.

Doric vaults feature an exclusive ribbed inner lining formed to exacting standards at our manufacturing facility in Kerrville, TX.

Burial vault liner is prepared to receive its outer casing of concrete. A layer of Integra-Bond® assures proper lamination.

Integra-Seal® butyl sealing compound is laid into the seal groove on the cover of the vault.

Concrete is poured into the base form and vibrated to insure all air pockets have been removed. The process is repeated for the cover to complete the vault.

After the concrete begins to set, the forms are removed. The product is smoothed and stored for final curing and finishing.
The vault begins the controlled 28-day process of curing to a load bearing strength of 5000 pounds per square foot. It will continue to cure after it is placed in the grave.

A water resistant exterior finish is applied to the outside of the vault. A hand applied highlighting completes many Doric vaults.

Personalized nameplate and emblem are applied and the vault is prepared for delivery to the cemetery on the day of the funeral.
Construction Components

Plastic Inner Liners

**DORIC FIBERLON®** plastic is formed with strengthening ribs for use as a lining in the DORIC PHOENIX®. It is a super high impact enhanced plastic. It evidences great impact and compressive strength. Consumers find applications of plastics such as FIBERLON® in NFL football helmets, telephone set casings and snowmobile or Wave runner components. The bronze, copper and stainless steel inner liners of the DORIC BRONZE®, LYDIAN® and ATHENIAN® are chemically bonded to FIBERLON® for additional strength.

**LUSTRA-TECH®** used on the DORIC PATRICIAN® is a high-gloss, high impact plastic formulated to enhance impact and tensile strength. LUSTRA-TECH® gives the PATRICIAN® a classic look of marble. Plastic similar to LUSTRA-TECH® are used in luggage and construction.

**DURAPREME®** is used to form the linings of the DORIC TIARA® and TITAN®. It is a tough high impact plastic. When formed into a lining with strengthening ribs on all sides, it exhibits tough flexural strength. Plastics like DURAPREME® are found in consumer items such as tableware and appliance linings.

**DORIC Ribbed Liners**

DORIC plastic liners used on the PATRICIAN®, PHOENIX®, TIARA® and TITAN® have strengthening ribs in their design, increasing both impact and compressive strength.

**Integra-Bond™** All DORIC burial vaults use a special bonding system. This adhesive bonds the plastic inner liner to the concrete wall and cover.

**Integra-Seal™** All DORIC burial vaults use a butyl compound in their seal groove that merges base and cover to form a single sealed unit. This butyl compound is highly resistant to extreme fluctuations in temperature.
